

Prime Recycled Pellets & rCompounds for Packaging Applications

RSH Product Example	Example of Application	Raw Material	Properties
ABS rCompound 2016	spools	PIR	high flowability, very high impact strength
LDPE Recycled Pellets 2005 WW	hollow bodies, tubes	PCR	blow molding & film extrusion grade, transparent
LDPE Recycled Pellets 2009 WW	films for e.g. collection bags	PCR	film extrusion grade, translucent, mixed colored or black
LDPE Recycled Pellets 2010 F	films for e.g. bags, air pillow film	PIR	film extrusion grade, also in transparent
LDPE Recycled Pellets 2012 WW	films e.g. hoods	PCR	film extrusion grade, natural translucent
LDPE Recycled Pellets 2017 WW	films for e.g. tire bags	PCR	film extrusion, blow molding & injection molding grade, high LLDPE content, natural translucent
LDPE Recycled Pellets 2070 i	pipe end caps	PIR	injection molding and extrusion grade, also in transparent
HDPE Recycled Pellets 5014 B	bottles, hollow bodies	PIR	blow molding grade, mixed colored or black
HDPE Recycled Pellets 5016 B/2	bottles, hollow bodies	PIR / PCR (<49/>51)	blow molding grade, mixed colored or black
HDPE Recycled Pellets 5080 i	Closures, caps, pallets	PIR, PCR or PCR / PIR	injection molding, also in transparent
PPC rCompound 1025 B	container	PCR	low flowability, black
PP Recycled Pellets 1100 i	cases	PIR	injection molding, also in transparent
PP Recycled Pellets 1300 i	buckets	PIR	injection molding, also mineral reinforced, also in transparent
PPH Recycled Pellets 1060i	strapping tapes	PIR	injection molding and extrusion grade, black

This overview shows only a small part of our portfolio with exemplary properties. Please let us know your requirements - we will be pleased to offer you further products from our portfolio or develop individual solutions for your needs. We will be delighted to advise you.
